12	have no comment on the above application 對上述申請沒有意見	The application should have happened BEFORE building the facility. The facilities may not be supported by the community for just this reason and may fail financially. A study and approval should have been done before the building started.
13	have no comment on the above application 對上述申請沒有意見	This is a pointless consultation exercise as the facility is basically already built and now not really fit for another purpose if plans were to change. This consultation should have occurred over a year ago!
14	object to the above application 反對上述申請	I'm in disbelief that they would build an ice rink without obtaining the license first. This is the reason for my disapproval. They either believe it is already approved by the government or don't care whether the local residents approve or not.

17	object to the above application 反對上述申請	I think my opinion will be somewhere between object and no comment (slightly objective), because in general when I heard it will be ice skating, i was disappointed. Perhaps because it is almost just targeting children and teenager customers only, and this place will be for sure overpriced and at the end a waste for DB Plaza valuable store spaces.
18	object to the above application 反對上述申請	This is unnecessary use of space for only a select few plus there were no consults done on how DB will handle the increase in visitors and how the increase of visitors will affect transport.

21	object to the above application 反對上述申請	We have no need for an ice skating rink. I believe that the space can be better used as a library as Discovery Bay does not have a library. A library will have a more positive impact on the community than a ice skating rink ever will as it can be used to educate and host educational events. It can also give youngsters a place to study in any case their home is unfit for them to study, therefore decreasing the gap between those who are fortunate enough to have a good educational environment and those who don't. While an ice skating rink could draw in tourists (which is something most DBers are opposed to) and therefore help the economy, this may be only a temporary effect. Whereas a library is a gift that keeps giving.
22	object to the above application 反對上述申請	The ice rink emits huge volume of exhaust heats and Co2, which violates the principle of discovery bay for a green city. Also, it will induce huge flow of visitors to discovery bay, causing increasing traffic burden to the area. Besides, the discovery bay recreational club in north discovery bay illegally occupying free basketball site for paid function. I urge the authority to prosecute discovery bay operator before further considering any of db new development

32	object to the above application 反對上述申請	They are wanting to have an ice rink in a hot climate.. ice rinks are proven to be one of the worse environmentally friendly things to have. Hong Kong Resorts we're staying they wanted to replace the ferries with busses due to it being more environmentally friendly then went on to build an ice rink!!!! Why not make it into a roller skate / rollerblade rink instead of impacting the environment with that monstrosity

33	object to the above application 反對上述申請	It should not be an ice skating rink. It should be a free space where older children can find a way to spend their time healthily outdoors. There are not enough public spaces catered to teenagers in DB. A skate park might be an option. It would be better to bring back a wet vegetable market much like you have in all other districts in HK. We need more local organic vegetable produce available for consumption in DB that isn't subject to profiteering by HKRI. No more fancy expensive chains like fusion, but yes to a market for local organic farmers who can be supported by the health conscious DB community, and at a reasonable price.

76	have no comment on the above application 對上述申請沒有意見	Crazy idea but it may make some residents happy. Also likely to increase visitors. Maybe good for business, but not necessarily for locals!
77	support the above application 支持上述申請	Considering that DB is first and foremost a residential area, it is necessary to control the number of external (I.e. non DB residents) skating rink users on any given day to a reasonable and acceptable figure to avoid over congestion on DB buses, over-crowdedness in and around the plaza and beach area and proper maintenance of hygiene standard.
78	object to the above application 反對上述申請	I don't understand the purpose of the icerink, if we had transparency on what it will be used for I will support it. The pricing the purpose the market segment its not clear, can we rent it out, is it part of the facilites, is it for residents only?

80	object to the above application 反對上述申請	We don't need an artificial ice rink, create a bigger indoor state of the art mart that is for families and kids. Think local then second about attractions for others
81	object to the above application 反對上述申請	DB is a residential area, the ice rink would trigger influx of a lot of tourists, facilities in DB should focus on DB residents
82	object to the above application 反對上述申請	Last DB needs is a skating rink, it's not what the residents need or want. In my opinion it will not add any value to the new shopping mall. The area can be better used to have an indoor playroom / sitting area during the hot summer months.

89	object to the above application 反對上述申請	This has been already built so what is the purpose of the consultation? But this must be the last thing that Discovery Bay needs, and at a time when energy saving is a priority has to be very questionable for the environment. Is it to attract people from outside the community? It just seems idiotic.
90	object to the above application 反對上述申請	No consultation with residents before the building of the skating rink.
91	support the above application 支持上述申請	
92	object to the above application 反對上述申請	Not needed , we have already to many " Visitors" from outside DB and hence more insecurity
93	object to the above application 反對上述申請	The Public Skating Park will change the normal quiet life of the residents. The crowd and the possible noise created will not be welcomed by the DB community. I can't remember we were consulted before the Skating Park was built.
94	object to the above application 反對上述申請	DB is a residential area and instead of a ice rink, we need more facilities for residents, not tourists attractions
95	have no comment on the above application 對上述申請沒有意見	
96	object to the above application 反對上述申請	This is a residential community. Whilst I appreciate that it will be used by some members of the DB community, the ice rink has obviously been planned to attract non DB residents to the area. This will increase the traffic, increase the risk of petty theft and detract from the community lifestyle that residents have worked hard to create. HKResorts must be confident that this will be rubber stamped otherwise they would not have built it in the first place. Certainly now is not the appropriate time to grant a license when we are in the middle of a health crisis.
97	object to the above application 反對上述申請	三十幾年前遷入愉景灣，沒有預計它會成為公眾娛樂場所，發展商亦沒有說明長遠有這方面計劃。沒有諮詢居民業主而改變原來業主對這區生活環境的想像，實有欺騙之嫌！
98	support the above application 支持上述申請	We need to make DB prosperous. Bringing additional people to the area improves the local facilities, better shops, better transport options for residents. Also gives local residents some leisure facilities for children. Would imagine the facility will be less populated during the week so would be good for resident children to utilise it then.
99	object to the above application 反對上述申請	DB is a residential area, it is already too crowded and doesn't need to attract tourists.
100	object to the above application 反對上述申請	DB is not a resort, it's a residential area, it residents the district's primary stakeholders. An ice skating rink is absurd and serves no other purpose than to increase congestion of already overloaded services and facilities. HKRI should be working on providing more functional recreational space for residents and their families.
101	object to the above application 反對上述申請	May gather unnecessary crowd and affect our quote neighborhood.

104	object to the above application 反對上述申請	I believe the space should be used to benefit the DB community, not as a tourist attraction.

105	object to the above application 反對上述申請	We need more public facilities. Population already exceeded 25000 which is larger than Peng Chau Island. The latter has more public facilities than Discovery Bay. The infra-structure of DB is already stretched. New residential building are already on sale. Public transport especially during the weekends are insufficient even with standing space. Approving the facility would result in visitors in large numbers resulting in destroying the peace and safety of our residential community. The public already comes in droves into DB especially over the weekend for the beach and hiking. Already the latter resulted in eating places inaccessible to the residents and inconvenience with the public transport.

109	object to the above application 反對上述申請	I have been living in DB and owning properties in DB over 30 years because of the peace and quiet environment unique to DB. I object turning DB to a busy entertainment mall swamped by non residents and inevitably depriving residents not only of priorities over public area facilities that residents should rightfully have, but also the peace and quiet that residents have been lured to when we first bought properties in DB.
110	object to the above application 反對上述申請	Another project designed to appeal to non residents. How about they invest money in a heated outdoor pool to keep the DBRC pool open all year round? Shall happily boycott it.

115	support the above application 支持上述申請	
116	object to the above application 反對上述申請	Discovery Bay prides itself on being a relatively private place. That is why people choose to live here. An ice rink may seem like an attractive commercial proposition for HKR, but I contest that it is not in keeping and is out of character with the environment here. The building and space could be put to far more useful purposes, such as a wet market, market stalls for local residents to sell goods and services and thereby help the local community in terms of supporting us with business here, and the residents who would find it far more useful. In summary, it only really suits HKR (not the local community), it has limited usage (how many local people will actually use it...and on an ongoing basis) and we do not want to be inundated with outside visitors to what is, as mentioned, a private community that came here for this reason.
117	object to the above application 反對上述申請	The ice rink is not something for local people I'm Discovery Bay rather is clearly intended as another tourist attraction. Other than any initial spike, I don't believe there will be regular and sustained local resident use age.
118	object to the above application 反對上述申請	I don't want Discovery Bay to be another Tai Koo Shing!
119	object to the above application 反對上述申請	This is creating more unwanted disturb and already overly crowded space in Discovery Bay. The cost of maintaining such a place is a waste of money . It's not only creating more damage and pollution , noise , also bringing unnecessary burden to the small society here . HKR has not even done one thing right for years.
120	object to the above application 反對上述申請	I don't like the idea that a skating rink will attract non-residents from all over Hong Kong. In developing the plaza without much consultation with residents and owners, the DB Management seems to be seeing the area as a tourist attraction rather than a facility for residents. If the skating risk has to go ahead, a substantial discount should be made available to residents but not non-residents.

124	object to the above application 反對上述申請	I feel that the building of an ice skating rink in our community was unnecessary. Also, I am afraid this ice rink will not be affordable to use regularly and may not attract potential return customers in the community. I would like to use this recreational facility, as I am a big sporting fanatic and have been involved in sports as a player/coach in DB for 20+ years. Yet, there are many existing sporting communities that already provide free services, or affordable activities outdoors.

255	object to the above application 反對上述申請	The ice skating rink does nothing to serve the immediate needs of the local community. On the contrary, it will be a commercial failure as it will fail to attract crowds from the city, due to it's small size and distance from the city (better alternative for city-dwellers would be to go to Disney or Inspiration Lake). This space can be put towards something more productive in service to the local community in Discovery Bay such as wet market (supermarket produce is too often stale), arts and crafts learning studio, youth trade skills workshop, or many other resources that would serve the local community.
256	object to the above application 反對上述申請	I do not support the application and feel it would be a negative element in Discovery Bay. We don't even have public basketball or tennis courts. 263	object to the above application 反對上述申請	I object primarily due to environmental reasons. Ice skating rinks are particularly harmful for the environment for a number of reasons. The refrigerants used are chemical gases (CFCs, HCFCs, hydrocarbons), which can be highly toxic, destroying the ozone layer and intensifying global warming. Hydrocarbons in particular hydrocarbons are highly combustible, often exacerbating smog formation, which we really cannot afford for the smog and air quality to further deteriorate in HK. High greenhouse gas emissions of carbon dioxide similarly intensifies global warming. And, ammonia, when inhaled, aggressively causes irreversible respiratory damage. I would also question and be concerned with how the waste is disposed of. When all of this is considered I fail to understand how an ice skating rink aligns with HKRI's environmental policy and its aims of reducing emissions. I also question why another skating rink is necessary, it's a ridiculous use of the space and how appealing is it to the community? It will end up as a hangout place for teenagers, not as a family friendly venue. I would propose a bowling alley as a more family friendly alternative, which would also appeal to a wider range of the community.

274	object to the above application 反對上述申請	1. The maintenance fee is expected to be massive 2. The amusement park would cause too many social issues to the residents eg noise pollution , crime 3. The carbon emission rate would be very high due to operation eg electricity , transport to and from outside to DB etc. The possible benefits gained is lesser than the harm.

275	object to the above application 反對上述申請	I believe it is a bad idea. Firstly, it will bring too many nuisance tourists to our peaceful way of life, creating disturbance in our community. Overall, a bad idea that no DB resident I know will support.

Discovery Bay ("DB") is a residential dominated community area, small-scale of such facilities solely purposely-built for local community as one of ancillary recreation club facilities (i.e. resident member only) is welcome. A Public Skate Rink is definitely out-of-context facilities in this quite, less road traffic, safe and relaxing residential community area. It will ruin totally the existing charater of the area. DB has already have a Golf Course, further bring in a Public Skate Rink in this small residential-based community would cause destructive effect on the community. The Application for Public Skating Rink at DB Plaza MUST NOT BE APPROVED.</p> <p>2. If approved, this public facility, together with the GOLF COURSE, will inevitably result in a massive influx of visitors from various districts in the Territories, even form overseas' cities. It will definitely create a severe social interface problems and will result in causing a detrimental effect on DB residents' living quality so as it living environment. Furthermore, such adverse effect will aggravate further when regular seasonal sports competition events are carried out. This significant adverse social impact is not acceptable to the local residents.</p> <p>3. Please note that the design and the capacity of the existing local road system in DB are substandard in nature and thus incapable to accommodate additional massive influx of vistors in this tranquil, car-free, safe and relaxing residential neighbourhood living area. The progressively reduction of ferry frequencies has already imposed certain considerable inconvenience to the local residents travelling to and from DB. Indeed, any additional influx of additional visitors, other than those ones generated from the Golf Course and leisure outsiders during Saturdays and Sundays, will destroy completely the existing living quality of DB.</p> <p>3. DB is NOT a suitable location for the Public Skating Rink. If LCSD grants a Public Skating Rink Licence to the Applicant, LCSD will be the responsible department to handle and to confront with the subsequent complaints, including, but not limited to, lodge compliants to the Ombudman, with respect to the consequential social interface problems that could be caused by its irresponsible decision, and that would end up creating an unacceptable community blight in DB.</p>

341	object to the above application 反對上述申請	I think a skating rink in HK is not suitable considering the weather. The cost to the environment of running air conditioners 24/7 cannot be in line with HK working towards a greener future. In addition, Discovery Bay is a community, not an Mtr shopping mall. Having a LCSD facility in DB means there will be additional traffic causing congestion and disrupting what should be a peaceful 'village' life. I strongly object to what has been happening in DB over the past few years that I have lived here. Was there a consultation of the residents before a skating rink was decided upon? 385	object to the above application 反對上述申請	It takes a lot of electrical energy to run an ice skating facility. A typical community arena can consume between 600,000 and 2,000,000 kWh per year depending on the location and facility operating profile. Is this really necessary during times were people get more aware about sustainability and taking care of our planet? I believe another way of entertaining people would have been much more appropriate .
386	object to the above application 反對上述申請	As HKR alone chooses what facilities and services local residents can use/enjoy, the enlarged plaza must offer as a minimum everything the residents need as an absolute priority. But many important and popular shops representing diverse needs have been forced to close down due to rent costs. We do not know which shops will be available in the new plaza, but the first one we have seen is yet another 7-11. This proposed ice rink takes up a lot of space which could be devoted to better needs. There are far better types of facilities that kids and families will use more often - the rink will not be used by many local residents. But it may attract a lot of local "tourists" who live outside of DB which will destroy the community/residential feel and stretch local services/restaurants (once the Covid epidemic passes). We firmly object.

392	object to the above application 反對上述申請	The proposed ice-skating rink provides negligible benefit to the residents of Discovery Bay; only a very small percentage (I consider to be less than 2%) will use such a facility. It is wrong that such a facility to be made available to non-residents of Discovery Bay. With consideration of the purpose of the transport from outside of Discovery Bay, the residents will suffer a great deal from being unable to easily get a seat on buses in particular. Also, considering the traumatic experiences that we are all suffering from today due to the COVID-19, such use of an ice-rink is only increasing the risk of residents of Discovery Bay to get infected by non-residents who may be suffering from this horrendous disease to bring it in to Discovery Bay and potentially infect residents using the transport system and mostly resident children who would be the only ones using such a facility. I strongly object to this ridiculous proposed ice-skating rink for Discovery Bay.
393	object to the above application 反對上述申請	The skating rink does not do any good and is not essential to the DB residents.
394	object to the above application 反對上述申請	To be honest, I think this consultation is too late as the ice rink is built and ready to be used so although i strongly believe that the space should have been used differently to maximise value to residents, there is little point in objecting now.....
395	object to the above application 反對上述申請	I'm sure we can come up with an entertainment facility or other community service supporting a wider section of the DB community. I doubt such a facility will be utilized sufficiently to warrant its approval...not to mention the energy use for such a facility.
396	object to the above application 反對上述申請	I object it because of the potential high price and unaccommodating terms HKR May adopt as they usually do.
397	object to the above application 反對上述申請	Not useful in this community. Ice rinks use up a lot of resources to maintain such as electricity and water.

398	object to the above application 反對上述申請	High usage of electricity. Environmental unfriendly.
399	object to the above application 反對上述申請	The ice rink is almost finished. why are they only asking for permission now? This will encourage lots of outside visitors to DB. What will be done to maintain the peaceful environment of the residents? We already have to put up with vast numbers of non residents using our facilities.

402	object to the above application 反對上述申請	There are already 5 ice rinks in Hong Kong, why does Hong Kong need another one? Ignoring the obvious environmental issue that contemporary ice-making and maintenance technologies consume large amounts of energy and produce refrigerant gases that cause pollution, Discovery Bay does not have a sufficiently large population to make an ice rink financially viable. HKR will overwhelm the DB infrastructure by providing free busses into DB from the Zuhai - Hongkong bridge and Tung Chung and give reduced fares on the ferry, as they do for the annual Easter egg hunt which brings transport to and from DB to a standstill. DB residents will, indirectly, be made to subsidise this transport. Transport costs are already overpriced in DB for the distances travelled and HKR does not subscribe to the HK Government's scheme for subsidised travel for senior citizens. In short, HKR are trying to monetarise their control over DB at the expense of the quality of life and the pockets of the residents of DB!
403	object to the above application 反對上述申請	Is DB a resort/entertainment place or a residential area??? Don't like the idea of having so many outsiders coming into DB, making the area dirty & messy as they don't actually live here and don't care about the environment.

412	object to the above application 反對上述申請	subject to the traffic and safety arrangement, make sure not disturb the residents in DB on road traffic, and good numbers of policemen would be arranged. Also keep the quiet atmosphere of the DB environment. as we had aware of this crowd situation during the easter breaks in the past two years that the landlord arranged the activities for outsiders to come to the beach, very messy up the nice beach, left the rubbish on the beach.

414	object to the above application 反對上述申請	There is absolutely NO NEED OR DESIRE for such an expensive-to-build and expensive-to-maintain public skating rink in DB. There are already many other well established ice rinks around HK for people to use, and it is unacceptable to build one in DB for the following reasons: (1) if DB is supposed to be a more 'green' or environmentally-minded place (as based on lots of the HKRI advertising), then this ice rink is going against that: the energy required to maintain the ice and cold temperatures is enormous! (2) DB is already a very active neighborhood with sports facilities, but what is really needed is more place for publicly-accessible multi-purpose sports and recreation court/field - not a single arena that only caters to skating and ice hockey. (3) the ice rink is not supported by the bulk of the DB residents, and is a way for HKRI to simply make more money from visitors and to increase ridership on their ferries - the HKRI's responsibility should be it's residents, but it often made clear that they simply care about profit (see what they've done with the transportation prices, etc. over the past decade) (4) the HKRI did not even consult with the residents about what would be 'needed' from a resident's point of view before they submitted this ice rink application - a waste of an opportunity to have a dialogue with the people that are their primary source of income (it is disgraceful).

422	object to the above application 反對上述申請	Public ice rink will cause DB too busy, destroy the quiet environment, HKR has no ability to handle, will affect their service provide (it is being bad enough already).

423	object to the above application 反對上述申請	there is a history over recent years where events that bring in non residents to this resort facility , there are not the public transport and amenities to cover the additional influx of people. it is evident that public facilities are stretched to the maximum within the residential community population members, any additional entertainment facilities that encourage visitors to Discovery Bay put a massive strain and inconvenience to DB residents who by the nature of there living and day to day spending are funding these facilities. Whilst visitors do spend a small amount on there visits it's the residential community that pay for all these facilities that have been gradually eroded over the past 3 years.
424	object to the above application 反對上述申請	The population of DB is not large enough to support an ice skating rink and enable it to run profitably. This will be redundant in a short space of time. An indoor activity centre consisting of trampoline park, climbing walls, cinema, laser tag would be better suited for DB community.

429	object to the above application 反對上述申請	Somehow I really don't think we need a skating rink in DB!! But it's already built. This will bring so much tourists to DB - are we not supposed to be a good solid residential resort? So much upheaval already with all the markets that are going on on Sundays - toilets get disgusting, no places in restaurants, etc. etc. Do we need more of this? We already have ice rinks in Elements and in Quarry Bay. That's my view.

We did not ask for a skating rink, why? can you give us a reason? how will the skating ring make DB a better place to live?
437	object to the above application 反對上述申請	A skating rink is environmentally unsound, unnecessary and unwanted. The DB residents were never consulted on whether or not they wanted a skating rink, and it is an absurd idea.
438	object to the above application 反對上述申請	Hi. I thought I sent this before, but I can't see a record of that. I object on the basis that HKRI should be spending money on addressing the shortage of proper recreational facilities/space for residents of DB. This proposal will do nothing for DB residents except increase congestion of the plaza area with day-trippers, thereby putting more pressure on facilities there that are already under strain (the state of toilets etc can be disgusting at times)
439	object to the above application 反對上述申請	I don't know anything about this project of Public Ice Skating Rink in DB Plaza. Do we have any study or impact study of this project? What about nuisances caused by maintenance and technical problems (drains, floods) and due to the tropical weather? How many people and who is interested in this project in DB? I would suggest this space be used as a multi-sports center for Badminton, Tennis, basketball, etc. more appropriate to individuals and DB residents of all ages. DB North community center is not opened to individual persons even if it is empty during the day. I am not in favor of this project thinking mainly that it is not appropriate to DB, and the whole community of DB residents.

441	object to the above application 反對上述申請	Pretty stupid system if they can apply after they have already built it. If they didn't have official permission to build it, we should file a police complaint for disrupting our lives while constructing an "illegal" structure. After all we have all had friends' extensions declared illegal. If this did not have official permission, it should be demolished. Overall, I think it is the craziest thing DBR has done in the 14 years I have lived here. And we can't even get access to a basketball court for our kids. Let alone the fact that they should have spent the money on the Secondary School which they were obliged to build as part of their original contract.
