

DB Ice Rink

Quick Facts

- Hong Kong's newest and largest ice rink meeting international standard for ice hockey games.
- Ice rink measuring size (including dasher boards) is 58.7m x 26.7m.
- Spectator stands with a maximum seating capacity of 165 plus viewing gallery on the other 3 sides.
- Full range of locker and changing facilities meeting international ice hockey games standards.
- Will be maintained and operated by HKR at its own cost.
- Application for Ice Rink Licence in progress and scheduled to serve the Community as soon as possible.

Background

- DB Ice Rink was proposed by HKR to provide more leisure facilities to the DB Community and to fulfil land lease requirements on provision of Public Recreation Facilities ("PRF").
- The proposal was based on discussion with the local community, schools and various stakeholder groups.
- A Local Consultation was conducted by the Lands Department in 2017 with majority support from the local community, in particular schools in DB.
- The proposal was subsequently endorsed by Lands Department and will be incorporated in latest MasterPlan.

Benefits to the DB Community

- More variety of leisure options for DB Community.
- World-class venues for promotion of ice skating and ice hockey sports within the DB community and for Hong Kong as a whole.
- Enhancing liveliness and vibrancy for the DB Community.
- Elevating the uniqueness of Discovery Bay as a balanced live/work/play lifestyle community.

Special Privileges to Residents

- DB residents will enjoy various exclusive privileges:
 - Free trials
 - Priority booking privileges
 - Discounted prices
 - Other fringe benefits

Transportation

- DB Ice Rink is conveniently located right next to the DB Ferry Pier and the new Bus Terminus, which provides adequate transportation support to the local residents and visitors.

Ferry • Every 30 mins to/from Central (peak hour up to 15-20 mins)

Bus • Regular external/internal bus routes – every 20 mins to/from Sunny Bay and Tung Chung

Taxi • Urban and Lantau taxis

- The traffic conditions will be closely monitored and enhanced services can be implemented timely. Special arrangements such as charter services will be provided in case of need.

Environmental Performance

- DB Ice Rink is environmental friendly with the following design considerations:

- Full compliance with the Building Energy Efficiency Ordinance of HK
- Ozone-free refrigerant in compliance with relevant requirements of the Environmental Protection Department
- Intelligent thermal monitoring system to ensure optimum energy efficiency
- Built-in heat recovery system to further enhance energy efficiency
- All costs of operations will be borne by HKR
